

Professional Hygiene

Powerful design, premium quality and function

The new dispenser series

Sensor-Paper towels, AutoCut
Soaps/foam soaps

Paper towels, Interfold
Centerfeed, Toilet paper

Comprehensive solutions
for all lavatories

Dear Readers,

welcome to WEPA Professional – your reliable partner in the field of cleaning and hygiene.

We are pleased to present you with the new WEPA Professional range of dispensers, which we have spent three years designing, optimising and finally realising.

At this point we would like to thank all those who have been actively involved in the process. Thank you for your practical experience, your ideas and suggestions, and last but not least, your patience with turning it into reality. The result is a range of dispensers of which we can be truly proud. There are currently eleven dispensers, which leave almost no application or user frequency uncovered. They have a powerful design, and premium quality and function.

And we can add something else to that, too: the new WEPA Professional range of dispensers is fitted with a replaceable design ring. Bring a breath of fresh air to your lavatory by incorporating your corporate colours.

INDIVIDUALITY is writ large at WEPA!

We look forward to receiving your enquiries
and until then remain yours sincerely

Yours,

Matthias Post

Head of Product Management and Marketing
WEPA Professional GmbH

Powerful design, premium quality and function
Designed, optimised, realised

Hygienic dispensing
and economic consumption

Easy to use, maintenance-free
and reliable

With individually configurable
locking system and design feature

PLUS: many new
impressive details

System paper towel rolls dispenser

Soap system dispensers

Folded paper towel dispensers

In top WEPA quality:

The new product design saves space and blends in harmoniously in almost every lavatory

With individually configurable locking system and design feature

Intuitive and robust

Hygienic dispensing and economic consumption

Easy to use, maintenance-free and reliable

Easy-to-read fill level indicator

The accompanying internationally understandable instruction guide is packed with illustrations and answers all the important questions regarding assembly, the locking mechanism, filling and changing the design ring. This leads to greater customer satisfaction and makes it easy to handle.

In detail: the clever locking system

All WEPA dispensers have a door, enabling them to be filled quickly and easily. The easily accessible twist lock on the side ensures a high level of hygiene by keeping out almost all moisture and dust. The universal key can be used for all dispensers in the range.

And WEPA continues to innovate! The lock can be transformed into a permanent lock in all "non-sensitive" areas! Simply attach a retaining ring on the inside and the key is now permanently locked in the dispenser, making it possible to open and close it at any time.

Comprehensive solutions for all lavatories Design made by WEPA

In detail: simple and easy to install

DRILLING HOLES AND MOUNTING ON THE WALL

All WEPA dispensers come with a separate mounting plate. Simply hold the mounting plate against the wall, mark the drill holes, drill the holes, screw the mounting plate in place and mount the WEPA dispenser on the wall – done! The benefit to you: if you need to replace a dispenser, e.g. if it has been vandalised or is being upgraded, the mounting plate remains on the wall and only the dispenser itself needs to be replaced. Do you already have an earlier WEPA model? The new range of dispensers uses the same hole configuration as the previous range. Simply change the mounting plate! In most cases there is no need to drill any new holes.

GLUING INSTEAD OF DRILLING

What if you're not permitted or able to drill holes? No problem! All WEPA dispensers have 3-4 areas on the back for applying adhesive. Simply apply an industrial adhesive according to the manufacturer's instructions and glue the dispenser to the wall! The clean and quick alternative if drilling holes isn't possible.

In detail: the material

ABS PLASTIC

(Acrylonitrile Butadiene Styrene)

Very robust, impact-resistant
and easy to clean

Temperature-stable up to
approx. 95°C
(Vicat softening temperature)

If separated correctly on disposal,
it is easy to melt down and reuse

The cutting teeth on the toilet
paper dispensers are designed to
ensure the hygienic removal of
the consumables without the risk
of cutting your hand

STEEL/METAL

Reliable, durable and safe:
the cutting technology on the
AutoCut and Sensor hand towel
dispensers is manufactured from
special hardened steel

Internal and therefore
inaccessible knife

WEPA allows you to incorporate your corporate colours in your lavatories

Have you ever thought about how many guests, customers, visitors, business partners, clients, employees, patients, travellers, suppliers, etc. use your sanitary facilities each day?

Why should your company identity stop at its threshold?

WEPA Professional brings colour into play! Out with monotony! Give your lavatories some individuality. Use the design ring to incorporate your corporate colour scheme in the lavatory or simply to coordinate the WEPA dispenser with your lavatory fittings.

It's child's play – in less than five minutes you can turn a WEPA dispenser into your WEPA dispenser

All new WEPA dispensers are fitted with an exchangeable design ring.

Simply open the WEPA dispenser, release the design ring, attach the design ring in the new colour – done!

The design ring in 16 trendy colours for all dispenser models New: exclusive and only from WEPA!

Individuality defines us all – it's your choice

Each WEPA dispenser is supplied with a white design ring as standard.

Three additional standard colours: anthracite, blue and sand are already waiting for you in our warehouse.

For order quantities of min. 20 boxes (= 200 design rings per model), we have a further 13 special colours in our factory warehouse.

3 standard colours

100 blue

200 anthracite

300 sand

13 special colours*

01 tan

02 yellow

03 middle blue

04 dark cyan

05 dark brown

06 pastel green

Professional Hygiene

AutoCut dispenser

Automatic dispenser system –
no battery or power consumption

Economic consumption: up to
448 uses per filling

Unsurpassed reliability thanks
to new cutting technology

Sensor dispenser

Universal – suitable for battery
and mains operation

Economic – dispensing interval and
sheet length individually adjustable

Intuitive – the sensor is located
directly under the dispenser

Hand towel dispenser systems

save costs and the environment – less is more

Less spent on transport, storage and logistics

Less consumption through automated single towel dispensing

Less staff time wasted thanks to long refill intervals

Less packaging material, less waste and thus less contamination
of the environment

More hygienic and better quality thanks to touch less dispensing

Your reliable partner in the field of cleaning and hygiene **WEPA Professional**

About WEPA Professional

WEPA Professional is a 100% subsidiary company of the WEPA Group. With over 2,900 employees and 10 locations across Europe, we play in the Premier League of the European sanitary paper manufacturers. This ensures that our customers receive a first class reliable service with quality products that are accredited to the highest European standards at competitive prices.

Environment & Responsibility

As a responsible manufacturer of sanitary paper, the WEPA Group has been paying attention to using sustainable resources and paper production in conformity with the environment for many years now. A large part of our sanitary paper products consists of 100% recycled materials and is FSC or PEFC-certified. The WEPA Group was also certified in acc. with ISO 9001 and ISO 14001 and engages itself in the "EU-Ecolabel" as well as "Blauer Engel" projects.

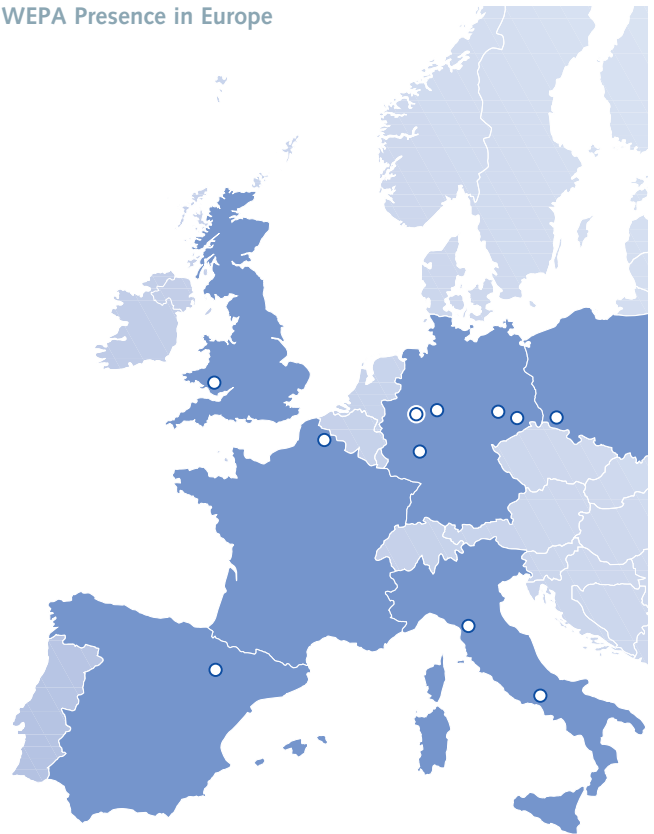

Quality & Logistics:

WEPA unites top-class paper production know-how with unique technical equipment. Constant product development, a consequent market orientation and Europe-wide sales are our guarantee for continuous innovation and advancement. With our highly modern warehouses and sophisticated logistics, we ensure delivery performance on the highest level.

Service & Availability:

Our experts will gladly assist you with your purchasing decision. Whether at short notice on the telephone, by fax or e-mail or in a personal talk on site. Our website www.wepa-professional.de always provides you with the latest news, the most current overview of our entire range and interesting facts about paper production, use and hygiene. EDI interfaces or e-data for your ERP system are also easily realized.

WEPA Presence in Europe
